Dennis Lunde is in the process of building a new shed across the street from his home at 37906 North little McDonald Dr. Lawn and Limb Landscaping LLC is working on the landscaping around the new shed. In the process of grading out for the new concrete driveway, we are proposing the following changes:

1. Closing off of culvert going under main road between Dennis Lunde's 2 properties.
2. Remove culvert that was just installed under east approach going into Dennis Lunde's new shed, then use approach as a berm to slow water runoff down; water will flow over concrete Driveway.
3. We will slope approaches back away from road to keep water on north side of road.
4. We also want to fill in ditch 8" to 12" to help with slopes when installing new driveway between approaches.
5. We will also dig out ditch a little on west side of west approach to collect some runoff as well.
